

Kansas State University
Department of Computer Science, Carl R. Ice College of Engineering
Online Course Content Access Payment Terms

Effective July 1st, 2023

The following courses are currently available under these terms:

- CC 110 & CC 111 – Introduction to Computing & Introduction to Python
- CC 210 – Fundamental Computer Programming Concepts in Java

The cost for these courses will be no more than **\$20 per student per academic year**. Actual costs will be listed on a schedule of charges available from K-State.

The academic year is measured from August 1st through July 31st.

Costs will be calculated based on total student enrollment as of these dates each year:

- **September 15th** for fall semester and yearlong courses
- **February 1st** for spring semester courses.
- **June 1st** for summer courses

Please ensure student enrollment numbers in Canvas and Codio are accurate as of those dates.

Billing will be handled by the Kansas State University Department of Computer Science or a designated 3rd party. Payment is due within 30 days of the invoice date.

These terms may be updated from time to time. Contact cyberpipeline@ksu.edu for the latest version of these terms.

Email cyberpipeline@ksu.edu with any questions or concerns.
